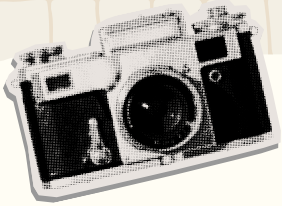
COMMUNICATION AND MEDIA SCIENCE BA (6 SEMESTER)

Tuition fees
3000 EUR

The aim of the program is to train communication professionals who are familiar with the institutions of the various stages of communication.



COMMUNICATION AND MEDIA SCIENCE BA

PROGRAM DESCRIPTION

The Communication and Media Studies BA programme combines practical training with solid theoretical foundations in a supportive international environment. The programme prepares students to understand media and communication processes while developing skills applicable in a wide range of professional fields.

Students acquire practical knowledge in related fields such as video production and editing, social media management, event organisation, marketing, and creative writing. These are complemented by theoretical studies in media history, journalism, and media analysis. The curriculum also includes broader academic subjects such as sociology, philosophy, and international relations.

CAREER OPPORTUNITIES

- Communication specialist
- Press or media relations officer
- Content creator (digital, social media, or editorial content)
- PR assistant or junior PR professional
- Marketing and communication assistant
- Social media manager
- Corporate communication officer
- Junior copywriter or editorial assistant
- Event communication and promotion coordinator

The programme also provides a solid foundation for further studies at master's level in communication, media, marketing, or related fields.

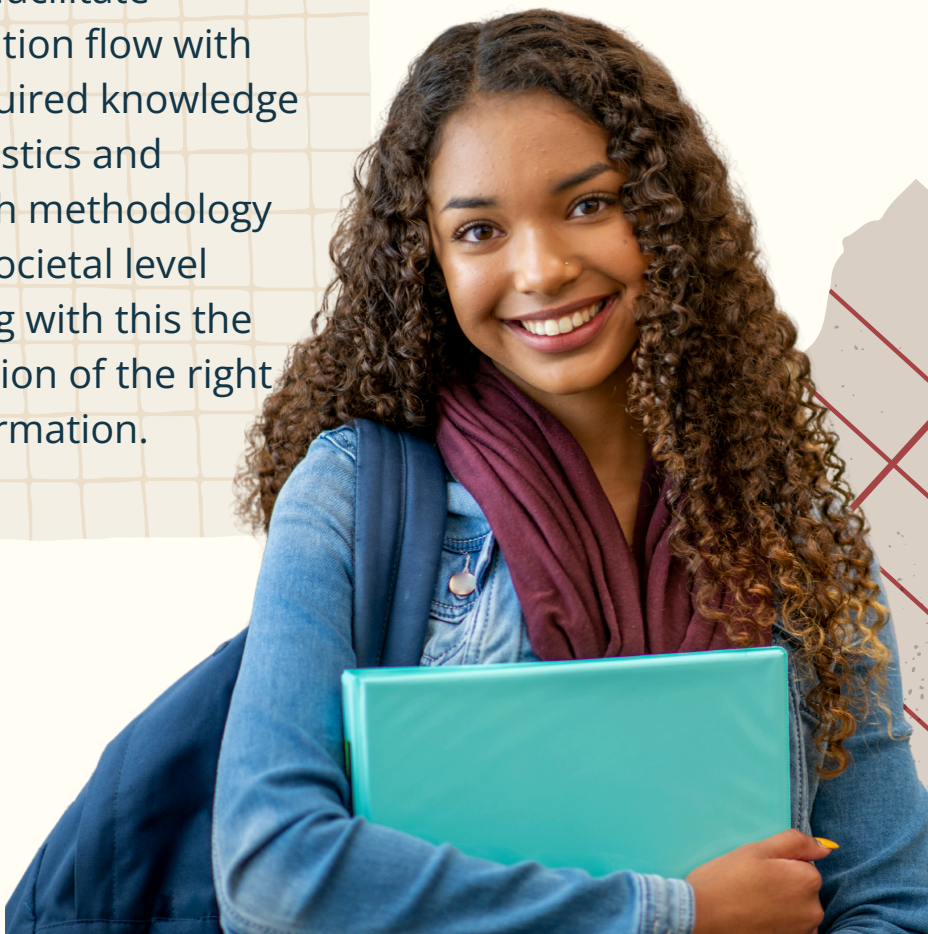
APPLIED LINGUISTICS IN ENGLISH MA (4 SEMESTERS)

Tuition fees
4000 EUR

Training experts who are able to facilitate information flow with the acquired knowledge in linguistics and research methodology at the societal level assisting with this the vindication of the right for information.

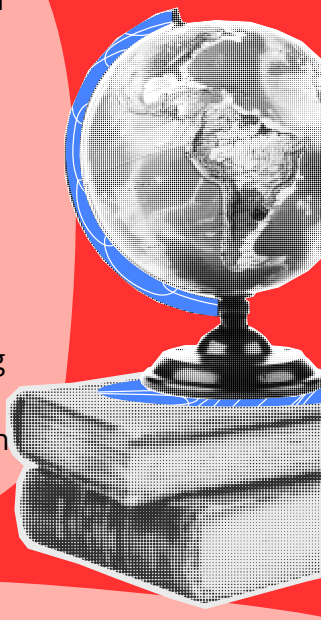


APPLIED LINGUISTICS IN ENGLISH MA

PROGRAM DESCRIPTION

English-taught master's programme based in Veszprém that focuses on the practical study of language in real-world contexts. It combines linguistic theory with research and application, helping students understand how language works in the mind, in society, and across cultures.

Students explore topics such as language acquisition, psycholinguistics, sociolinguistics, multilingual communication, and language policy, while also gaining skills in linguistic research methods. The programme places strong emphasis on intercultural communication and the role of language in a globalised world.



CAREER OPPORTUNITIES

You will be able to work at any places where human communication is in focus.

Trainees gain the appropriate level of knowledge to go on with their studies at the doctoral level.
