University of Pannonia
Faculty of Engineering

YOUR GLOBAL JOURNEY STARTS HERE

build your future with us

Think Global. Study Smart. Succeed Anywhere.

Why choose the Faculty of Engineering?

Practice-oriented education
Direct teacher–student interaction
A strong focus on sustainability
Personalized learning paths
Skill development for future careers
Opportunities to participate in research projects
Outstanding scholarship options
A supportive and close-knit academic community

Talent management

Individual study plans
Mentoring and career support
Development of key competencies
Opportunities to join research early

International recognition

IChemE accreditation
Internationally recognised degree in the British Commonwealth and the United States.

ACCREDITED Degree IChemE

Research & Innovation

Participation in real research projects
Development of innovative solutions
Gain practical experience and industry connections

Join a globally respected academic community.

Programs

Undergraduate programs

Water Operation Engineering BSc - Nagykanizsa Campus
Environmental Engineering BSc
Environmental Sciences BSc

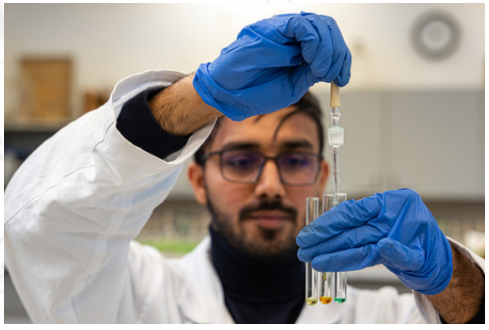
Master programs

Chemistry MSc
Chemical Engineering MSc
Environmental Engineering MSc
Environmental Sciences MSc
Industrial Systems Engineering MSc
Materials Engineering MSc

Doctoral programs

Chemical Engineering and Material Sciences Doctoral School
PhD in Materials science and technology
PhD in Bio-, environmental-, and chemical engineering sciences

Doctoral School of Chemistry and Environmental Sciences
PhD in Chemistry
PhD in Environmental sciences



Scholarship opportunities & International mobilities

Stipendium Hungaricum Scholarship
Tuition-free education, monthly stipend, accommodation contribution, medical insurance

Hungarian Diaspora Scholarship
Tuition-free education, monthly stipend, accommodation contribution, medical insurance
